In brief: Bangladesh pharma manufacturing industry:

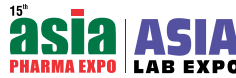

The pharmaceutical sector of Bangladesh is progressing multifold. Apart from meeting the domestic demands of pharma formulations, the pharma industry is also earning huge foreign exchange from the exports. With the existing market value of about USD 3 billion, the Bangladesh pharma manufacturing industry is rapidly marching ahead with great potential as 98% of the country's total demand for medicine is being met by nearly 300 domestic manufacturers, which is a milestone in the history of the Bangladesh pharmaceutical industry. At the same time, these local manufacturers are exporting as well to more than 142 countries across the world.

The anticipated market size of the Bangladesh pharmaceutical industry is more than USD 6 billion by 2025 with an absolute growth of 114% from 2019 levels, while the pharma exports of Bangladesh is likely to cross USD 450 Million by 2025. The share of the local manufacturing companies is above 90%.

An encouraging development is more than 47 units at API Manufacturing Park are coming up near Dhaka. The Bangladesh pharma industry now meets around 98% of the local demand for medicines, which is a milestone in the history of the pharmaceutical industry.

Out of 658 exhibiting companies, 98.4% wanted to exhibit at APE 2024

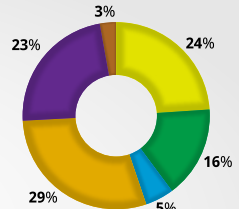

Exhibiting Companies at ASIA PHARMA EXPO 2023

- International Exhibitors
- Local Exhibitors

What brings back these exhibitors back..?

- Manufacturing
- Agents / Associates / Channel Partners
- General Market Orientation

Visitor Profile

- Purchase & Vendor Development
- CEO, Managing Director
- Sales, Marketing, Research
- Production, Manufacturing
- Technical Engineering
- Govt., Embassies, Academics

APE 2023 emerged as the technology solution provider business event with its 14th edition providing trade platform for 658 exhibiting companies from 32 countries..

EXHIBITORS' PROFILE:

- PROCESSING Machineries (Tablet / Capsule / Injectable / Ointment / Powder - Dry Syrup)
- PACKAGING Machineries & Materials (Blister Machines, Filling / Packing / Labeling / Capping Machines, Labels, Aluminum / PVC Foils, Caps / Closures / Rubber Stoppers, and many more)
- CLEANROOM & Utility Eqpts & Services (HVAC, Partitions, AHU, Dehumidifiers)
- WATER TREATMENT & Management Systems (CIP / SIP, Filtration / Sterilization Plants)
- PROJECT Consultants & Turnkey Contractors
- ANALYTICAL & BIOTECH Lab Instruments, LIMS, Glassware, Lab Reagents & Consumables, Lab-ware, Spectrophotometry, Chromatography, and many more
- API, Pharma Bulk Actives, Excipients, Additives
- API Manufacturing Plants
- Drug REGULATORY Authorities
- Trade ASSOCIATIONS, Trade Publications & many more

Chief Guest:
Mr. Nazmul Hasan, MP

President,
Bangladesh Association
of Pharmaceutical Industries
President,
Bangladesh Cricket Board

The Bangladesh pharma industry grew 12 to 15% last year and 1,500 medicines have been registered worldwide. We hope that drug exports would increase significantly in the coming years. In the current situation of LDC graduation period, Bangladesh pharma industry is offering medicines at very negligible cost bypassing the royalty fees. If the government gives registration of patented drugs before LDC graduation, the royalty fees can be escaped. The price of medicine hasn't gone up that much when compared to our production expenses. Besides, you cannot just hike up the prices of medicine as we have to take into consideration people's purchasing power. So we all have to work together to provide quality medicines at low prices in such difficult times. Sri Lanka and Pakistan are suffering from a shortage of drugs. Bangladesh is in a much better situation than them. By working together, we will be able to overcome this difficult situation. Despite the tough times, the pharma industry grew by 12 to 15% last year. We are trying to ensure that there is no shortage in the supply of medicines

Mohammad Yousuf**

**Director General,
Directorate General of Drug
Administration (DGDA)**

Providing drugs at low cost is a big challenge for us now. Despite the increase in material prices, the price of medicines has not gone up that much. If Bangladesh can produce own raw materials and get a pattern before the LDC graduation, the prices might be control post LDC graduation phase. The government has already given all sort of support including tax rebate in raw material import and 20 percent incentive on export.

Mr. A Muktadir

Vice President
Bangladesh Association
of Pharmaceutical Industry
Managing Director
Incepta Pharmaceuticals Ltd.

ASIA PHARMA EXPO Exhibitions are benefited in a great way, as we can see many different exhibitors, both from our neighbouring countries and also from other part of the world – Europe and the American continent are participating. I urge the Bangladesh pharma manufacturers to increase their exports not only in regulated markets, but also in emerging markets, as well. The drug prices in Bangladesh have increased only slightly in comparison to the price hike of raw materials. Bangladesh can grab the opportunity as the crisis has been prevailing in the pharma sector in different countries, including developed countries like Europe. We need to increase our exports to save foreign exchange. Also, if API raw materials are produced locally, we will be able to save more and we are going towards that direction. I am sure, in the coming years, the profitability will increase, increase in exports, and the pharma industry will become a major contributing factor for the economy of Bangladesh. And hopefully, the Bangladesh pharma industry will become a fully developed country by 2041.

Mr. Paresh Jhurmarvala

Co-organizer
ASIA PHARMA EXPO
CEO
GPE EXPO PVT. LTD.

While discussing the future of the local Bangladesh industry, strong actions are needed to ensure sustainability during the post-LDC era. Presently, developed countries are facing a crisis as labour is highly expensive there while Bangladesh can reap the benefits with ensuring more and more contract manufacturing for the companies in developed countries. It will provide two-way benefits, a no risk business approach and also no worry with patent issues after LDC graduation. At a time when the country is going to graduate from the LDC status, contract manufacturing is the best way before getting fully prepared for the days like the pharma industry of India is doing.

I, on behalf of the Bangladesh Association of Pharmaceutical Industries, thank the Hon. Prime Minister Shaikh Hasina approved

10% incentive for formulation and 20% incentive for API. ASIA PHARMA EXPO 2023 has come up with a large number of participation from repeat and first time exhibiting companies, ensuring your visit is more informative and meaningful.

Mr. S M Shafiuzzaman
Secretary General
Bangladesh Association
of Pharmaceutical Industry

Bangladesh has always followed a pro-patient policy. Bangladesh is one of the first countries, who have adopted the essential medicines' list from WHO. Bangladesh is having advantage of being LDC status till 2032, to take maximum benefits. Bangladesh and India should collaborate and work together to support the global population, who cannot afford medicines at high prices, as affordability and patient centric policy always play a crucial role.

Mr. Ravi Uday Bhaskar
Director General – PHARMEXCIL

The ASIA PHARMA EXPO 2023 was a successful one. We're making prefabricated manufacturing facility technology affordable and accessible to anyone looking to rapidly build or scale biopharma manufacturing capability. Bangladesh Association of Pharmaceutical Industries' proactive role in helping the pharmaceutical industry grow faster. More trained and skilled manpower should be built up to uplift the industry.

Mr. Asif Ahsan Khan

ASIA PHARMA EXPO helps the local distributors and production companies to come in touch with all sorts of pharma related companies under one

platform, where they can learn about newer technologies, how the tech-world is evolving about supplies and gather knowledge about more sources to bring quality products. It also helps analyze the local market and where it is going towards.

Mr. Rakib Ahemd
Director
Maritime Entrepreneurs Pte Ltd.

Among our 27 partners exhibiting partners, two companies from Italy and UAE exhibited in 2023 for the first time in the ASIA PHARMA EXPO

Exhibition. They show interest to participate in the Expo next year seeing a huge potential of the drug market in Bangladesh. As we showcased wide range of machineries during the Expo, it is difficult to name one, but machines with the latest technologies for smooth operation are having the most queries.

Mr. Isa Khan
Associate Director
Saka International

We are proud to participate at the ASIA PHARMA EXPO, Bangladesh exhibitions for many years. The Exhibition offers a fruitful exchange of pharma insights for pharma business. We acknowledge the Organizers for their hard efforts to make such an event highly successful and result oriented.

While exhibiting at the ASIA PHARMA EXPO 2023 that the good sign was that all the people were experiencing the technologies in person,

not in digital means. For the pharma sector in Bangladesh, the good sign is that they are demanding for the products shifted to quality machines. Bangladesh has huge manpower and for the sustainable growth of the sector they need skilled manpower. Demands are showing that the clients in Bangladesh are focusing on exports as their future plan. But there is a crisis, not only for Bangladesh, but also for the global ones, so the country needs to find a way so that the growth of the sector could not be halted.

Mr. Ingo Küsel
 Area Sales Manager
 L.B. Bohle Maschinen und
 Verfahren GmbH

As we - CMS GLOBAL, based in UAE, the ASIA PHARMA EXPO 2023, Bangladesh Exhibition provided us a remarkable platform for exploring the

growing pharmaceutical market of Bangladesh. We had a great opportunity to meet and discuss over a coffee with the representatives from numerous pharma industries and diverse stakeholders like designers, consultants, distributors, suppliers, etc. The overall enthusiasm and acceptance we received for our air filters and various HVAC products were astonishing.

Dr. Giri Nandagopal
 Production and Development Engg,
 R&D Wing & Product Development Engg
 CMS Global

Firstly, I would like to compliment the Bangladesh Association of Pharmaceutical Industries, EEPC INDIA, PHARMEXCIL and GPE

Expo Team for the grand success of recently concluded Asia Pharma Expo 2023 and Asia Lab Expo 2023 at Dhaka, Bangladesh. This show, which was flagged off by GPE EXPO PVT LTD and Bangladesh Association of Pharmaceutical Industries in 2003 with a visionary thought and consistent efforts has registered unprecedented growth & success.

The Exhibition - ASIA PHARMA EXPO 2023 - in particular was highly successful as around 658 exhibitors participated from 32 countries where. The best part of the Exhibition was the huge footfall of around 12,000 and a large share of which were Indian exporters and especially engineering product exporters. Without wasting time, all stakeholders along with the business houses have taken various measures to address the difficulties exporters were facing by organizing such international Trade Exhibitions.

Mr. Arun Shukla
Director
Vishwakarma Engineering

Bangladesh is the fastest growing pharma manufacturing market, and we supply our products to most of all major companies in the country. The Exhibition - ASIA PHARMA EXPO offers an opportunity to meet and discuss face to face with our customers and prospects about their requirements. The Exhibition gathers us all and to sit down together and have these broad panels of opportunities, and we are proud of our participation.

Mr. Oliver Patat
Regional Sales Director

I congratulate the Bangladesh pharma manufacturing sector to achieve such phenomenal growth in the world

pharmaceutical arena through lots of efforts and patients. In my early days visiting Bangladesh, way back in 1988, there were hardly 80 pharma manufacturing factories, and today, by staying for one month, the period would be too less, to cover up the entire pharma industry of Bangladesh. ASIA PHARMA EXPO has rightly entered at the right time in the Bangladesh pharma industry, giving the chance to all pharma machinery manufacturers to enter the market. With state of art technologies at the manufacturing facilities of various companies, have got necessary international regulatory approvals and exporting pharma products worldwide. Wishing the Bangladesh pharmaceutical industry tons of success to come up to newer heights.

Mr. P H Vachharajani
Sr Vice President
Cadmach Machinery Co. Pvt. Ltd.

It is nice to attend the customers interested in quality products are increasing. Looking to the inquiries, at the ASIA PHARMA EXPO 2023 is as much as thrice of previous three years. The customers are asking about the certification of the products, their current market, scope of customization and further enhancement, and so on. But nearly three years back, it was limited to one area - cheaper machinery. The customers' demand, solid oral are more established in Bangladesh and so the demand for the machinery and ingredients for producing oral products are very high.

Mr. Nitesh Shah
Business Director

The pharma manufacturing market in Bangladesh is vibrant, colorful and fast growing. Besides some difficulties due to the current global situations, Bangladesh remains one of the important countries for the pharma manufacturing in Asia. We thank the Organizers of this strategic Event, as it gives us the possibilities to explore better the potentials and dynamics of this crucial market.

Mr. Luca Cevenini
Marchesini Group S.p.A.
Area Manager
